

Reports Overview

Our Reports are a powerful repository of data providing the information and insight you need to ensure your business is running effectively and efficiently. All our Reports can be filtered and customized by Date, Group, Tracker, and more! Looking to do more with your data? Our Reports can be exported into a CSV file for extra manipulation.

- Log in to your Customer Portal and from the Map page click 'Reports'.
- 2 On the left-hand menu, you will see all the Reports available for use.
- Click on any to begin! Below is a brief description of some of our most popular reports.

Reports Dashboard: An overview of your vehicle habits and activity in a consolidated format

Alerts: A fleet-wide look at all Alerts that have been generated. On this report you can sort by specific Alert, such as Speeding, to highlight areas that are important for you to monitor.

Safety Report Card
